About

BCA graduate with hands-on experience in building responsive web applications using HTML, CSS, JS, React and developing backend services with Spring Boot & SQL. Skilled in creating clean UI, debugging, and ensuring application reliability through structured testing and problem-solving. Looking for exposure to real-world workflows through an internship in your organisation.

Skills Summary

Languages: HTML5, CSS3, JavaScript, React, Java, SQL

Technical Skills: Problem-Solving, Object-Oriented Programming, DSA

Soft Skills: Rapport Building, Stakeholder management, Project Management, Excellent communication

GenAI Tools: ChatGPT (OpenAI), BlackBox, SciSpace, Google Gemini & Nano Banana, Perplexity, Gamma

Education

International Institute of Professional Studies, DAVV, Indore	Indore, Madhya Pradesh
M.C.A. (Master of Computer Application) SGPA- 8.50	2025 - 2027
International Institute of Professional Studies, DAVV, Indore	Indore, Madhya Pradesh
B.C.A. (Bachelor of Computer Application) CGPA- 8.45	2022 - 2025

Projects

Quiz Web Application- A full-stack web application with a React-based frontend delivering responsive and user-friendly interfaces, and a Spring Boot backend handling business logic with SQL-based data management. Focused on writing clean, maintainable code while actively debugging and resolving issues to ensure performance and reliability. Performed systematic testing, defect identification, and continuous improvement of application stability using console errors and Postman.

Shopping Bandhu (IoT Based Self Billing Machine)- As a team (Team Sigma) we built this project and I led creative design and device connectivity for the system, ensuring seamless interaction between hardware components including NodeMCU ESP8266, NFC tags, weight sensors, and servo motors using C++ (Arduino IDE). Developed and integrated a user-facing web interface using HTML, CSS, and JavaScript for real-time cart tracking and billing.

Certifications

Workshop- IoT Based Product Development (VAC)

HackerRank- SQL (Intermediate), SQL (Basic), CSS (Basic), Software Engineer Intern

TCS ION Career Edge- Young Professional

Cognitive Class.ai- SQL and Relational Databases 101
